

ONLINE EDUCATION FOR CHILDREN OF UKRAINE

For all parents and teachers, so they may engage with children to continue their education!

Children's education must go on! The Ministry of Education in Ukraine, in partnership with Google, has launched the "[Ukrainian Online Schedule](#)", which aims to support parents to engage their children with educational activities, wherever they are.

Developed for pupils between 1st – 11th grade, this interactive schedule includes links to educational materials from different sources (All Ukrainian School Online, tele lessons, textbooks etc.) for all subjects according to the curricula.

The Online Schedule can be accessed both via Internet and through Ukrainian TV channels, broadcasted in real time for the children who have access. If you have a question about using this portal, please contact us at: vso.abroad@uied.org.ua.

Here is how to access the *Ukrainian Online Schedule*:
